

# 8 Day Retreat Mallorca

with **Kelly Bryson**

In this intense retreat we will create an environment or field where **aliveness, authenticity and transparency are welcomed, encouraged and valued deeply**. This „permission zone“ initiates an energy of surprise, enthusiasm and trust and a desire to create „sacred intimate communion“ between individuals and within the group.

From this communion consciousness blooms. We believe it takes a village to raise a consciousness. This village provides the context to **understand one's authentic self, to grow as social beings and experience significance, authentic power and belonging**. It is juicy, energetic, safe, connected, sweet and inspirational.

This focus on transparency and on sharing and clarifying unsolved issues makes it an **invaluable catalyst for a fully lived life**. With your participation we will engage in Tribal Technologies of all sorts for creating trusting, tolerant, touching, transparent and transformational tribes. Some of these technologies will include Nonviolent Compassionate Communication, Juicy Dancing, Heart Connecting Puja, Human Awareness Intimacy Exercises, Biodanza, Getting Real, Transformational Theatre, 7 Minute Connections, Next Culture Process and conscious massage.

We will be living together on a marvelous Spanish Finca on the beautiful Mediterranean island of Mallorca and engage in many activities designed to create a community field of connected awareness, including creating communal meals.

You are invited to give an amount on a sliding scale between: 1.490.- € – 1.790.-€
